## METHODOLOGY

A total of 1,009 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Among the entire sample, 28% described themselves as Democrats, 24% described themselves as Republicans, and 48% described themselves as Independents or members of another party

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".

Question 8C

We'd like to get your overall opinion of some people in the news. As I read each name, please say if you have a favorable or unfavorable opinion of these people -- or if you have never heard of them.

C. Hillary Clinton

Question 8L

We'd like to get your overall opinion of some people in the news. As I read each name, please say if you have a favorable or unfavorable opinion of these people -- or if you have never heard of them.

L. Scott Walker

Question 19/20

Q19. I'm going to read a list of people who may be running in the Democratic primaries for president in 2016. After I read all the names, please tell me which of those candidates you would be most likely to support for the Democratic nomination for president in 2016, or if you would support someone else.

Q20. And who would be your second choice?

WARREN FIRST CHOICE REALLOCATED
